

## NFIRS Cincinnati Fire Department Incident Data

incident\_date: Date (mm/dd/yy) the fire incident occurred.

incident\_number: The number of the run that was dispatched that day. For example the twenty-second run of the day on June 16 will have the incident number 22. This number resets at the start of the new day.

cad\_number: This field is the unique id of dispatch to the fire unit through the the Computer Aided Dispatch (CAD) system

alarm\_date\_time: The date ( yyyy mmm dd) and time (hh:mm:ss) that the dispatch for a fire incident was received by the fire company.

unit\_clear\_date\_time: The date ( yyyy mmm dd) and time (hh:mm:ss) when the last unit cleared the incident scene. This is not an elapsed time.

Street\_address: The street name and number in which a fire incident occurred.

Apt\_suite\_number: In the case of a fire incident at an apartment complex, this field indicates the apartment number where the incident occurred.

Neighborhood: The City of Cincinnati SNA neighborhood that the fire incident occurred in.

Incident\_type\_id: The code of the actual situation that emergency personnel found on the scene when they arrived. The overall description of the codes is found below.

SERIES	HEADING
100	Fire
200	Overpressure Rupture, Explosion, Overheat (No Fire)
300	Rescue and Emergency Medical Service (EMS) Incidents
400	Hazardous Condition (No Fire)
500	Service Call
600	Good Intent Call
700	False Alarm and False Call
800	Severe Weather and Natural Disaster
900	Special Incident Type

Incident\_type\_description: The specific description of the actual situation that emergency personnel found on the scene when they arrived.

Alarms: the actual number of alarms transmitted for the incident. The definition of alarm is determined at the local level.

Suppression\_app\_count: The suppression apparatus count is the number of Cincinnati Fire Department **fire** units that responded to the specific incident. For example fire trucks and fire engines.

Suppression\_per\_count: The suppression personnel count is the number of Cincinnati Fire Department employees that responded to the specific incident.

Ems\_app\_count: The EMS apparatus count is the number of Cincinnati Fire Department EMS units that responded to the specific incident. For example ambulances or any medic units.

Ems\_per\_count: The EMS personnel count is the number of Cincinnati Fire Department employees that responded to the specific incident

Other\_app\_count: The other apparatus count is the number of Cincinnati Fire Department units that are not EMS or fire units that responded to the specific incident.

Other\_per\_count: The other personnel count is the number of Cincinnati Fire Department employees that are not classified as fire or EMS related who responded to the specific incident.

incident\_closed:

location/geo\_location: The city, zip code and latitude/longitude of the location of the fire incident.
